In his words: The goal for “no questions asked” was to present our music to a wide audience while showcasing the collective talents of the Railroad Boys. I made a personal choice to work exclusively with my bandmates for the recording in order to create a “real live” reproduction of our unique sound. The one exception was to add the creative talents of dobro extrodinaire Kevin Maul who was inducted as an honorary Railroad Boy for his contribution to the project. *Jim Gaudet*
